

# Classroom *Unplugged*: Crossword Biology

A collection of crosswords, this book aims to serve as a stress-free tool to enjoy Biology teaching and learning! It covers a wide range of topics under the umbrella of Life Sciences. Primarily this book has been designed with a scholastic appeal; but it is also a great recreational activity especially for young minds that get boggled with a plethora of Biology jargons!

The impetus to design this content is a result of the feedback from higher secondary school and undergraduate students who experienced difficulties in grasping and recollecting terminologies in Biology. This self-evaluation activity will not just help students enjoy Biology without rote learning but will also promote confidence-building and stimulate reasoning and critical thinking which are crucial for excelling in academics as well as in competitive science exams.

**Dr. Leena Thorat** is a DBT-BioCARE Scientist currently associated with Savitribai Phule Pune University, India. Apart from research, she enjoys writing articles on science education and popularization and delivering talks to young students. She has authored articles on Biology crosswords in science education media such as Resonance- Journal of Science Education and Teacher Plus- the Magazine for the Contemporary Teacher. A passionate informal educator, she has a knack for igniting young minds with her creativity!
